Meerbusch, march, 23, 2009

Recommendation Letter

Dear Sirs!

We have pleasure in confirming herewith that our company has engaged the professional services of Messrs. GBP INTERNATIONAL in the years 2008 and 2009.

GBP assisted and supported us in the restructuring of our business operation in Asia and conducted various tasks related to due diligence, market research, business development, client interaction and the development of a regional sales and marketing strategy in South East Asia. As such GBP was directly involved with our senior management as well as the operational people on the ground in the various Asian countries.

GBP's services were of immediate positive impact to our group and we valued the services and the professionalism at all times. The team of GBP and its Managing Directors always showed great dedication, knowledge and motivation.

We thank GBP for their contribution very much and would always be happy to engage GBP again if the need arises.

We do recommend GBP to our business partners without any reservations.

Yours faithfully

Rainer Kürvers
